WORK EXPERIENCE

Software Developer (Remote, Part-time) Generation Impact Global

02/2024 - 01/2025

Geneva, Switzerland

An ESG data management and reporting software company.

- Designed MySQL schemas and optimized data pipelines for ESG reporting platform.
- Developed backend integrations and automation, including REST API integrations and Slack webhook notifications for operational monitoring.
- Contributed to full-stack development and testing, building frontend features with React/Astro, automated test suites with PHPUnit, and managing Docker-based development environments.

PROJECTS

Incidentalists (2022)

- Developed a full-stack enterprise platform for insurance claim management, implementing backend services and business logic to process incidents, validate policy coverage, and manage document/image attachments. Integrated external APIs and built real-time notifications using WebSockets, with data ingestion features for CSV/Excel imports
- Tech: Java, Node.js, Vue.js, Docker, REST APIs, WebSockets

Careline (2024)

- A remote healthcare platform for monitoring, triage and health data management was designed and implemented. The scalable architecture was built using Go, Spring Boot and PostgreSQL. IoT integrations have been implemented, as well as real-time monitoring via WebSockets with JWT authentication. Mobile and web platforms have been developed for patients and healthcare professionals using SwiftUI
- Tech: Java, Spring Boot, Go, PostgreSQL, WebSockets, REST APIs, SwiftUI, IoT Integration

Web Cloud Deployment (2024)

- Re-architected a web application as cloud-native microservices and deployed it via Docker, which was orchestrated using Kubernetes
- Tech: Docker, Kubernetes, Terraform, Laravel Sail

HONOR AWARDS

Merit Grants (2022)

Polytechnic Institute of Leiria

- Awarded to top-performing students (≥ 16/20)

EDUCATION

MSc in Computer Engineering (Mobile Computing)

Polytechnic Institute of Leiria (IPL)

09/2023 - 11/2025

Leiria, Portugal

- Final Grade: 18/20

BSc in Computer Engineering

Polytechnic Institute of Leiria (IPL)

10/2020 - 07/2023

Leiria, Portugal

- Final Grade: 18/20

TECHNICAL SKILLS

Programming Languages

Java, JavaScript/Node.js, Python, PHP, Go, C#, C

Frameworks

Spring Boot, Laravel, .NET | React, Vue.js, Nuxt.js

Cloud & DevOps

Docker, Kubernetes, Terraform, GCP, Laravel Sail, Firebase

Databases

MySQL, PostgreSQL, MongoDB, SQLite, MariaDB

INTERESTS

Chess

Music

Puzzles

LANGUAGES

English

Full Professional Proficiency

Portuguese

Native or Bilingual Proficiency
